The following are important details for your river trip on the Tuolumne. The information will help to make your trip a safe, comfortable, and enjoyable one. Please call us if you have any questions.

La Casa Loma Store, Groveland, CA  
9:00 AM

Our meeting place at La Casa Loma Store is 8 miles east of the town of Groveland on Highway 120. To reach Highway 120 from the Bay Area take 580 east to 205, which connects with 120.

From southern California follow the map above (short-cut) or take I-5 north to Highway 120 East. Please check a map and carry it with you in your car.

Stay on Highway 120 through Groveland and proceed 8 miles to Ferretti Road (this is the second Ferretti Road option and not the one in town). Make a left turn onto Ferretti Road and another immediate left turn onto La Casa Loma Road. The La Casa Loma store is 100 feet down La Casa Loma Road.

If you plan on flying to the area, the closest commercial airports are Sacramento, Oakland, and San Francisco. You then need to rent a car to get to the meeting place. Small private planes can land locally at the Pine Mountain Lake Airport.

The head guide: The head guide for your trip will meet you at La Casa Loma Store and you should be dressed in your river clothes. For two or three day trips, you will receive a large waterproof bag for packing your gear. If you have any extra items that you won't be taking on the river they should be locked in your car.

After everyone is packed, a 40-minute bus ride takes the group to put-in. At the river, the guides will loading gear and give a safety talk which will take about 45 minutes before the trip launches. Be sure to have a hearty breakfast.

The pace: The pace of your river trip is very dependent on the water level! All trips cover 18 miles of river from Meral's Pool to Ward's Ferry. One-day trips occur only in the early spring when the water is high and the weather tends to be cool. It is a long day on the river with only a stop for lunch. Two-day trips set a more leisurely river pace but have very little time for exploration. Three-day trips offer more time for exploration and relaxation.

There is a stop mid-day for lunch. On two or three day trips, we reach camp in the mid to late afternoon. Upon arrival there is free time to set up camp and relax before dinner is served. If you are new to camping the guides will be happy to help you.

Water releases: In most "normal" years, the water in the Tuolumne River drainage is controlled by upstream dam releases. The schedule of water releases varies from month to month, but we often schedule the second day of our trips with morning activities while we wait for the water to reach our camps.

The trip ends: The trip ends in the late afternoon at Ward's Ferry and a charter bus will take you back to your car at the La Casa Loma Store. The ride takes about an hour, and you can expect to be back there between 4 and 6 PM. Since take-out times vary, we suggest you keep your evening plans flexible.

High water trips demand from all of us a greater level of preparation. It is important for these trip guests to be ready for high adventure!

- ▶ You should be in good physical condition
- ▶ You should be a good swimmer and comfortable in water
- ▶ You should be mentally prepared for excitement and adventure
- ▶ Wetsuits will be mandatory
